DEDICATED TO SAFETY"

BENEFITS

Benefits of Qualifi Level 7 IDIP in OHSM

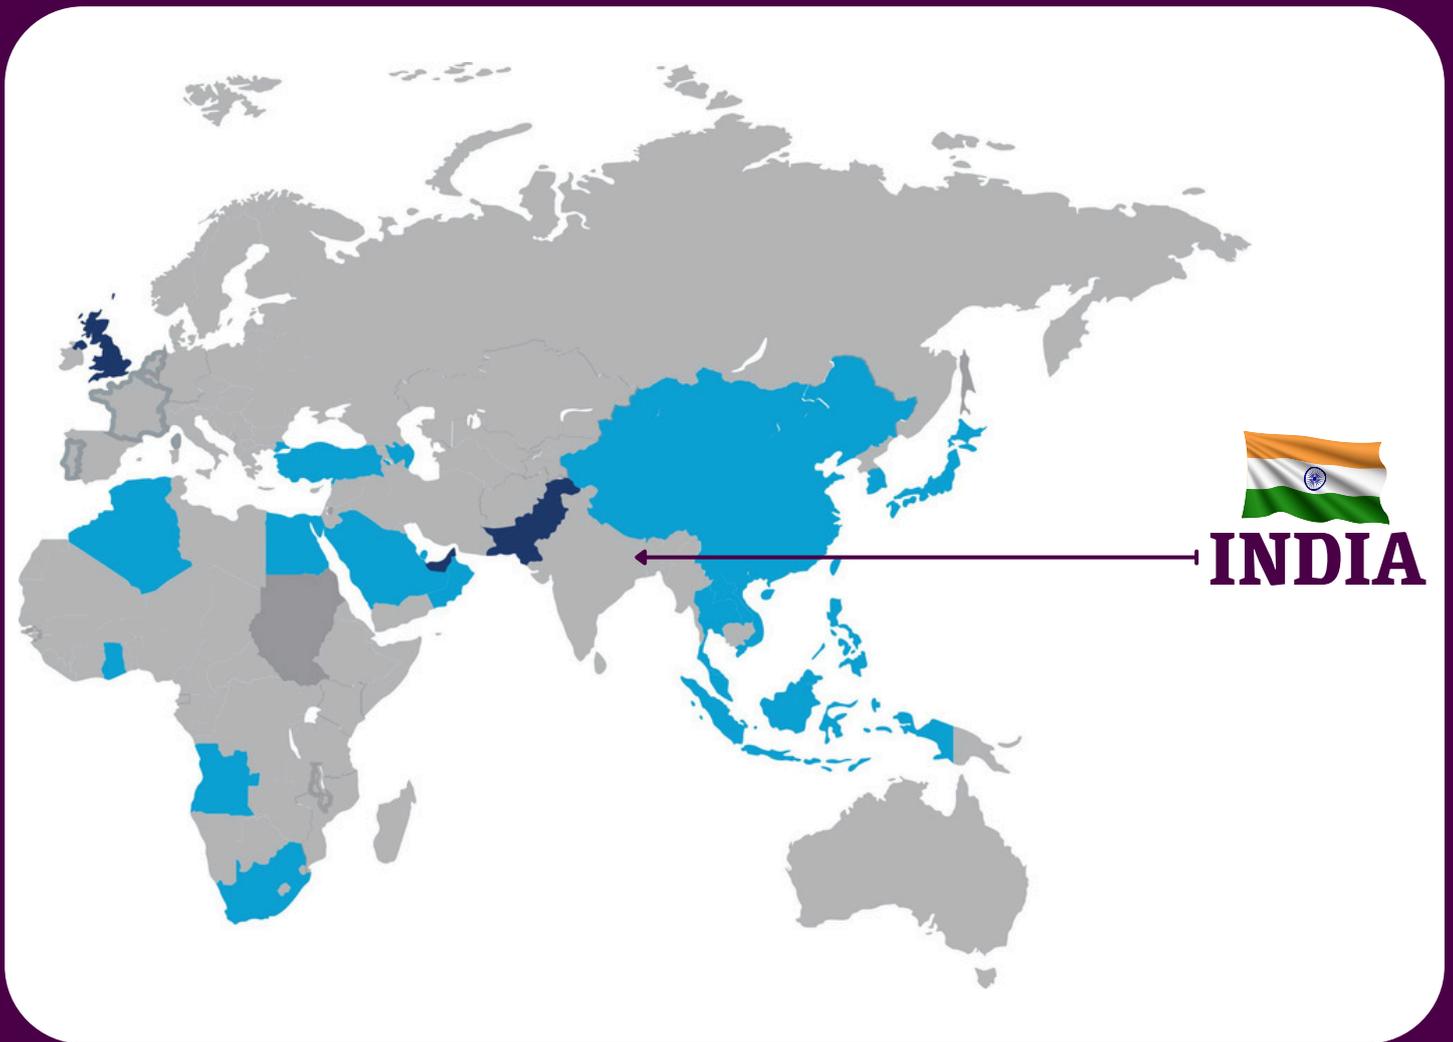

This is a RQF Level 7 qualification and hence 60 credits are awarded to the learners on successful completion of the course.

Learners can apply for Post Graduate degrees in occupational health and safety in the UK universities. Since the learners have 60 credits, exemption is provided by the universities while applying for post graduate courses. That is learners have only 120 credits to complete the post graduate qualification instead of 180 credits.

This course offers career progression from safety officer to safety manager, or helps in promotions during appraisal. This is a preferred RQF Level 7 qualification for professionals in occupational health and safety domain. Directors and professionals in leadership categories prefer this RQF Level 7 course.

Course content is well structured and each unit reflects the emerging and changing landscape of the occupational health and safety domain. This qualification is considered a contemporary and quality RQF Level 7 qualification in International Safety diploma.
